

# THE CUNNING LITTLE THING.

When baby wakes of mornings,  
Then it's wake, ye people all!  
For another day  
Of song and play  
Has come at our darling's call  
And till she gets her dinner  
She makes the welkin ring.  
And she won't keep still till she's had her  
fill—  
The cunning little thing!

When baby goes a-walking,  
Oh, how her paces fly!  
For that's the way the babies say  
To other folks "by-bye."  
The trees bend down to kiss her,  
And the birds in rapture sing,  
As there she struts and waves her hands—  
The cunning little thing!

When baby goes a-sleeping,  
In her bed at close of day,  
At side and eek  
On her dainty cheek  
The dreams and the dimples play  
Then it's sleep in the tender kisses  
The guardian angels bring  
From the far above to my sweetest love—  
You cunning little thing!  
—Eugene Field in Chicago Record.

# RUB THE OTHER EYE.

Good Advice of an Engineer Regarding the  
Removal of Cinders.

Nine persons out of every ten with a  
cinder or any foreign substance in the  
eye will instantly begin to rub the eye  
with one hand while hunting for the  
handkerchief with the other. They may  
and sometimes do remove the offending  
cinder, but more frequently they rub until  
the eye becomes inflamed, blind a  
handkerchief around the head and go to  
bed. This is all wrong. The better way  
is not to rub the eye with the cinder in  
it at all, but rub the other eye as vigor-  
ously as you like, according to a  
writer in The Medical Summary, who  
relates the following experience:

"A few years since I was riding on  
the engine of a local express. The en-  
gineer threw open the front window,  
and I caught a cinder that gave me the  
most excruciating pain. I began to rub  
the eye with both hands. 'Let your eye  
alone and rub the other eye' (this from  
the engineer). I thought he was chaffing  
me and worked the harder. 'I know you  
doctors think you know it all, but if  
you will let that eye alone and rub the  
other one the cinder will be out in two  
minutes,' persisted the engineer.

"I began to rub the other eye. Soon  
I felt the cinder down near the inner  
canthus and made ready to take it out.  
'Let it alone and keep at the wall eye,'  
shouted the doctor pro tem. I did so for  
a minute longer, and looking in a small  
glass he gave me found the offender on  
my cheek. Since then I have tried it  
many times and have advised many  
others and have never failed. It is to fail  
in one instance unless it is as sharp  
as a piece of steel or something that cut  
into the ball and required an operation  
to remove it."

# A Queer Marriage Ceremony.

A queer marriage ceremony was that  
in Queen Elizabeth's reign, before the  
deaf and dumb alphabet was invented,  
between Thomas Plaisy and Ursula  
Bridget. Ursula could talk just enough,  
but Thomas was a deaf mute, and as it  
was required that promises should be ex-  
changed in spoken words nobody knew  
how to manage the thing. Finally the  
bishop of London helped to devise a  
service by signs, and Thomas proceeded  
thus:

Having first taken Ursula in his arms,  
he took her by the hand and put the  
nuptial ring on her finger. He then laid  
his right hand significantly on his heart,  
and afterward, putting their palms to-  
gether, extended both his hands toward  
heaven. Having blessed and for divine  
blessing, he declared his purpose to live  
with Ursula till death should separate  
them by closing his eyelids with his  
fingers, digging the earth with his feet  
as though he wished to make a hole in  
the ground and then moving his arms  
and body as though he were tolling a  
funeral bell. —Pittsburg Dispatch.

# Honey From Lump Sugars.

To make it take a quantity of lump  
sugar, remembering that your vessel (a  
preserving kettle is best) must be large,  
as the sugar boils up at one stage of the  
process and is apt to run over and catch  
fire. Pour on the sugar a little water,  
enough to melt to a syrup when hot.  
Boil and skim till clear, when drop in  
for two quarts as much powdered alum  
as you can pile on a dime. The alum is  
to prevent the sugar from granulating.  
Be ready to lift the kettle off the fire  
quickly as the alum causes the syrup to  
boil up very high. Boil until it be-  
comes of the consistency and the color  
of strained honey, when add a teaspoonful  
of Jamaica ginger, stir thoroughly  
and set to cool. —St. Louis Post-Dis-  
patch.

# Married School-Teachers.

Married women can still be appointed  
to positions in the Milwaukee public  
schools. At the meeting of the execu-  
tive committee of the school board, a  
motion was defeated which at-  
tempted to discourage matrimony on  
the part of the teachers of the Mil-  
waukee public schools. In that it pro-  
posed the retirement from the force of  
teachers of all married women who had  
hands upon whom they could depend  
for support and the nonemployment in  
the future of married women as teach-  
ers.

# Climbing Higher.

A New York girl, Miss Lillie J. Mar-  
tin, has gone to Germany to enter the  
University of Gottingen. As a student  
she is a "Vassar graduate of the class of  
1889 and has been a teacher, occupying  
responsible positions since she left col-  
lege. To go abroad and perfect herself  
in higher branches of science, to which  
study she is specially devoted, she re-  
signed the vice principalship of the  
girls' high school at San Francisco, a  
position she has filled for several years.  
She hopes to enter the department of  
experimental psychology. —New York  
News.

# Lamb and the Scotchman.

Charles Lamb said he never could  
impress a Scotchman with any new  
truth; that they all required it to be  
spelled and explained away in old  
equivalent and familiar words and  
phrases. He said he had spoken to a  
Scotchman who sat next to him at din-  
ner of a healthy look.

"Healthy, eh, healthy, did you  
say?"

"Yes, healthy."

"I'dnae comprehend. I have heard  
of a healthy man and of a healthy  
morning, but never of a healthy book."

Helen M. Stoddard,  
Helen M. Stoddard, president of the  
Texas W. C. T. U., has been for the  
past 20 years an ardent advocate of  
woman suffrage. She was converted by  
a lecture of Susan B. Anthony's. The  
Texas W. C. T. U. is doing a great  
work for suffrage under the impulse of  
Mrs. Stoddard and its other progressive  
leaders.

A clock with a human face has been  
made by a clockmaker in St. Peters-  
burg. The hands are pivoted on the  
nose. At midnight the eyes close and  
the mouth yawns. About 2 in the morn-  
ing the mouth emits a gentle snore.  
This is done by means of a phonograph  
in the interior.
